

Embedded Generation

RRN Submission

If you're planning to install or upgrade a renewable energy system and/or battery storage system under 30kW and plan to export electricity to Western Power's network.

After your application is approved by Change Energy, we will issue you a Retailer Reference Number, which you will need to include when submitting your technical and connection application to Western Power.

Please ensure all fields below have been completed and email this form to sales@changeenergy.com.au

Customer Account Details

Account Name: _____

ABN/ACN: _____

Change Energy Account Number: _____
